

Protect the Furniture from Humidity and Mould

By
Creative Projects

Introduction

By this information, we would like to introduce you to our company of professional team in which we specialize in humidity and mould solutions, for the last 23 years, by offering you high quality material that we install with lifetime warranty.

Installation Process

We provide the service of installation of water boards direct to walls.

These water boards come in two different thickness

4mm or 6mm, dimensions are width of 1.22cm &

Length of 2.44

Descriptions on product

These boards are made of silica sand and fibre. These are easy to allow any kind of finishing you want to achieve.

Like for example you can simply plaster between the joints and paint them or you can choose to fix tiles, marble or any kind of finish you desire to do.

Solving humidity problem behind the furniture

Installation of water boards will help you solve any problem a client would have with humidity. It also helps you to protect furniture from getting any damages with humidity.
