

AMINO CHEMICALS LIMITED.
(Company description)

AMINO Chemicals Ltd. manufactures high quality bulk active ingredients to support its customers for the earliest possible launch of generic pharmaceutical products into regulated markets. Thanks to its US FDA-Inspection multi-purpose plant in Malta, the company enjoys from the favorable local patent situation and Bolar provision which allow to fully exploiting the potential of new generics APIs, using its own non-infringing processes while guaranteeing the full respect of third parties' rights in the destination countries.

Amino Chemicals offers a variety of synthetic chemical reactions, all of which are carried out with close attention to safety and consistency. In recent years the company is offering CMOs' (Contract Manufacturing Organization) services to the chemical pharmaceutical industry and provides clients with comprehensive services from drug development through manufacture.
