HAWK SYSTEMS AND SOLUTIONS

Hawk Aerospace has a long history of providing superior products, systems and solutions to customers in both the private and public sectors.

We provide reliable and cost-effective solutions for commercial aviation, homeland security, energy and local agriculture, no matter the size of the organization.

With decades of experience, we have learnt that assigning the appropriate level of expertise and practical experience throughout a project lifecycle is key component of any successful project.

Believing in Practical Solutions

Bringing New Ideas to Develop the Future World of Business

INTEGRATED MANAGEMENT SYSTEMS

Hawk Aerospace can provide you with project specific Incidence Command Systems (ICS) that are designed to your needs. Together with top quality training, supervision and support, the Hawk Soteria ICS is the ideal solution to manage any possible scenario.

AERIAL SURVEYING & INSPECTION

The Hawk Saturn can be fitted with a variety of visual systems which allows for a wide range of the visual spectrum to be used to help you detect the healthiness of your crop to maximise the yield of your estate, power plant or facility.

TRAINING & CERTIFICATION

Using a simple interface, our systems can be operated by anyone. To this end, Hawk Aerospace provides you with all the training and certification you need to operate any of our systems yourself giving you greater affordability.

GET IN TOUCH

Our team at Hawk Aerospace are passionate about Engineering Tomorrow's Technological Solutions for today's evolving problems.

We combine decades of experience in innovation with dedication towards great customer service to provide you with the desired solutions and customer satisfaction.
